

Weed Pulling Application

Residents who wish to pull weeds on their waterfront may do so with ALMA's permission. ALMA's primary concern is that some weeds will actually be spread by pulling, particularly some invasives, and we wish to verify that the weed being pulled is not one that will be spread by pulling. Also no power tools are permitted. Please answer the following questions. Mail application to ALMA, P.O. Box 3, Andover, CT 06232 or use the link "Send ALMA an email" on the ALPOA website <http://www.andoverlake.com/> to email it. ALMA will respond as quickly as we can evaluate the situation. Let us know if you have a preferred method of contact.

ALPOA membership # _____

1. Describe the weed, include a photo if possible or give an identification if you can and state why you want to remove it.

2. Where is the weed with relationship to your waterfront? Including a map would be helpful.

3. How will you extract and dispose of the weeds?
